## Information for Authors

Submission of a manuscript implies that the work described has not been published before, that it is not under consideration for publication elsewhere, and that it will not be published elsewhere unless it has been rejected by the editors of “Annales Mathematicae Silesianae”. Moreover, the article contains no unlawful statements and it does not infringe the rights of others.

All authors contribute to the same extent to the present article, and no ghostwriting or guest authorship practices occur. Ghostwriting and guest authorship are indications of scientific dishonesty and all cases will be exposed and adequate institutions will be informed.

Manuscript should be written in English and prepared in L<sup>A</sup>T<sub>E</sub>X. Its pdf file should be submitted electronically as an e-mail attachment to:

annales@math.us.edu.pl

An abstract of not more than 15 lines should describe the main results of the paper. Included into the footnotes of the first page should be the Mathematics Subject Classification (2010). Key words and phrases should follow. In the case of a long title, it is necessary to indicate an abbreviated title which will be used as a running head (up to 60 characters including spaces). Figures should be prepared in a form suitable for direct reproduction; EPS or PNG files will be most helpful. References should be numbered and arranged in alphabetical order, or in the case of the same author, chronologically. The style and abbreviations should follow the “Mathematical Reviews” (MathSciNet). Authors affiliations, including complete postal address and e-mail address, should be given at the end of the manuscript.

On acceptance of the manuscript Authors will be asked to send the final version of the paper as the source L<sup>A</sup>T<sub>E</sub>X file, original files of all illustrations and pdf file to: annales@math.us.edu.pl.
